

In the Specification:

Page 1, lines 1-3, please delete the current title "Trackable Optical Discs With Concurrently Readable Nonoperational Structures" and in place thereof insert: ~~Trackable~~

A1

Optical Discs With Concurrently Readable Analyte Material--.

Page 92, lines 27-34, please delete "While preferred illustrative embodiments of the present invention are described, it will be apparent to one skilled in the art that various changes and modifications may be made therein without departing from the invention, and it is intended in the appended claims to cover all such changes and modifications that fall within the true spirit and scope of the invention", and in place thereof, please insert the following paragraph:

A2

--While this invention has been described in detail with reference to certain preferred embodiments, it should be appreciated that the present invention is not limited to those precise embodiments. Rather, in view of the present disclosure which describes the current best mode for practicing the invention, many modifications and variations would present themselves to those of skill in the art without departing from the scope and spirit of this invention. The scope of the invention is, therefore, indicated by the following claims rather than by the foregoing description. All changes, modifications, and variations coming within the meaning and range of equivalency of the claims are to be considered within their scope.--.

In the Claims:

Please add the following claims 83 - 211:

- A3
ent
- 1 83. An optical disc player adapted for operating in combination with an optical disc
 - 2 having a spiral shaped or a concentric shaped information track conventionally formed on a
 - 3 first surface of said disc, said track being formed with at least one operational structure for
 - 4 providing physical indicia suitable for at least focus error signal generation and tracking
 - 5 error signal generation, said disc having unidentified analyte structures positioned
 - 6 confocally with said operational structures which form said information track, said player
 - 7 comprising:
